

CLOSING WITH A RUSH

EILERS' EXHIBITION SALE SOON TO BE A MATTER OF HISTORY

Two sales in the morning and three in the evening is the record of yesterday's buying at the Exhibition Sale in the Masonic building.

Your neighbors are availing themselves of this unprecedented opportunity afforded conservative buyers by the 10 per cent discount to close out the balance of the stock. Why shouldn't you get a piano now?

One more day settles it. Saturday we pack up. Come early tomorrow morning and make your choice at once. All our instruments are unconditionally guaranteed, and all the privileges we have ever offered still apply in this sale. Don't delay but come at once. Prizes and terms to suit.

EILERS' PIANO HOUSE. Ninth and Commercial streets. F. N. Smith, Manager.

CARD OF THANKS

On Monday afternoon, while playing on the racks at the Combine cannery, a broken board caused my son, Herman, aged 8 years, to fall into the water, the report of which has been given to the public through the press. But for the bravery and timely assistance of Mr. Herman Leinenweber, manager of the Standard Oil Company's business at this place, he would surely have drowned. To Mr. Leinenweber I am more than grateful, and I am under everlasting obligations to him for his brave act which saved the life of my son.

T. B. BIDWELL. GOOD FOR THE HEAD.

P. A. Stokes is agent for the Dunlap & Co. hats, the greatest hats in the world. See the new styles.

FOR LABOR DAY

Bartenders' Union, No. 142, held a meeting last night at which they decided to turn out on Labor day. A committee was appointed to procure a suitable float. The meeting last night was well attended. The union has a membership of 70 and a good turnout on Labor day is expected.

The union electricians will also turn out on Labor day.

LIVE FISH REMOVED

Live fish are no longer displayed in the show window at Foard & Stokes store since the insurrection of the big salmon last week in which they broke the glass and turned loose a tank of water in the store. Instead, however, they have a very pretty display from the Chinook hatchery. It consists of 100 specimens preserved in vials arranged in pyramid form and ranging from the egg to a two-months old fish.

WOMAN'S COLUMN

Beauty has ever been considered woman's gift.

Ill temper causes more ill health than green apples.

Ill temper is to beauty what green apples are to little boys.

Eat regularly—always at the same hours—and chew carefully.

Fashion writers declare that the pompadour will remain in style for the coming season.

There are many women in these days in the hold-up business—that is, we mean highway robbers.

Careful eating, simple food, slow eating, long mastication are good things for bad digestion.

Some of the sweetest deeds of kindness are looked upon as affectation, for that is the way of the world.

We admire with absolute ravenousness of soul the woman who is great enough not to quarrel with anybody.

A liquid paste made of alcohol and whitening is said to impart great brilliancy to window glass, also removing specks.

The present fad of high heeled shoes and slippers is making business for chiropodists. Don't wear them. Be sensible.

The house should be a place of happiness and quiet. Both husband, wife and children should strive for this point.

Be sure the water is at boiling point before putting in vegetables to cook; otherwise their freshness and flavor will be lost.

Pennsylvania is going to give medals to the mothers of large families. The fathers will not get even honorable mention.

The famous young Brazilian, Santos-Dumont, is afraid of only one thing—the American girl. Why? Because she is so pretty.

Women make very good rural carriers, and they do not lose time gossiping when delivering the mail, as one should suppose.

If everybody in this world had all they wanted of everything it would be a terrible sad time for some chronic kickers.

It is now conceded by many shrewd judges of the sex that woman's beauty is most splendid and her intellect is in full maturity at 28 years.

Why don't they see what the X-ray will do to the gospel germ? Seems to have been tried on everything else, and this certainly needs attention.

You can differ from another person but because you differ is no reason for insinuating that your insinuating partner belongs to a feeble minded concern.

A woman begins by sighing: "I can't go because I have nothing to wear." Then she gets clothes and frets because she has no chance to wear them.

Brought up on grapes, their warmth and bloom gets in the blood of the spanish girl and give her a loveliness that is intoxicating as wine—an exquisite type.

To be honest is to have self respect and metal loveliness to do good work is to be numbered among the contented of the earth. To be misunderstood is just the funny part of life.

**MEDICAL LAKE SALTS**  
NOT A CATHARTIC - NOT A PATENT MEDICINE.

So long as Medical Lake can Provide the requirements of an enfeebled constitution, you need not suffer. Here are Nature's own remedies, direct from the hand of the Great Creator, brought to you in the shape of pleasant, agreeable, health-giving Salts, evaporated by our own process. They have lost absolutely no virtue—no strength. By analysis, the waters of Medical Lake contain twelve ingredients, each and all standards of the pharmacopoeia. By analysis the Salts have the same in exactly the same proportion. Nature has compounded them so efficiently that man has tried and tried in vain to make them. But it can never compete with nature, when nature evolves a masterpiece. That the Salts are a masterpiece, their history proves. To Medical Lake, a little woodland gem hidden high up in the mountains, among the forests of Washington, the Indians for centuries came. Here they worshipped, and drank of the pleasant waters. The well were made stronger and thrived on the delicious beverage, and the sick and ailing were restored. In all diseases of the BLOOD, RHEUMATISM, NEURALGIA, GALARIA, and in all cases of KIDNEY and LIVER TROUBLE, MEDICAL LAKE SALTS WILL MAKE A CURE, if taken faithfully; yes, cure as sure as the sun shines. Man, with all his learning and his cunning, his experience and his skill, cannot make remedies like these, which nature freely gives.

25 CENTS, 50 CENTS AND \$1.00 A BOX, AT DRUG STORES

The Salts are also reduced, as a convenience, to Tablet form; five grains in each Tablet. Such a Tablet dropped into a glass of water, makes a remedy for the same troubles and at the same time an equally delightful cooling beverage.
